

FLAGSHIP ADVENTURES

POWER BOAT TRAINING

STATE LICENCE COURSE

In the Commonwealth of Massachusetts, youths between the ages of 12 and 16 may only operate a powerboat without adult supervision if they have passed a safe boating education course recognized by the Commonwealth. Most states now have, or will soon have, safe boating education requirements as well. Our State License Course curriculum has been accredited by the National Association of State Boating Law Administrators (NASBLA) and the Commonwealth of Massachusetts as meeting their required standards for a safe boating education course.
